

Get Wisdom! **Respect** Discussion Questions (More questions are available in the back of the book and songs and other resources are available online):

1. Who should you respect? Are there certain people who are hard to respect and why? Why should you respect those who are hard to respect?
2. Are there certain things people do, especially those over you, that make you have a hard time honoring them? Why should you still show them honor or respect?
3. Who is the first one you are to respect? How does your respect for Him affect your respect for others?
4. What are some ways you can show respect for God and others?
