

Get Wisdom! **Diligence** Discussion Questions (More questions are available in the back of the book and songs and other resources are available online):

1. The definition says diligence is working without getting distracted. Why do you get distracted when you are working? What do you get distracted by?
2. Proverbs 6:6 tells us to look to the ant and to consider its ways to gain wisdom. What about the ant can we learn from? How can it make us wise?
3. Being diligent means work comes before doing things you want to do. What jobs need to be done first before doing what you want to do?
4. What was Jesus' work (See the prayer in the book)? As Christians we are so grateful that Jesus completed his work for us in living and dying for us. Ask him to help you be diligent like he is.
