

Get Wisdom! **Courage** Discussion Questions (More questions are available in the back of the book and songs and other resources are available online):

1. The definition says courage is doing what must be done. Why is it hard for you sometimes to do what must be done?
2. Fear many times is the reason we are afraid to do what must be done. What kind of things are you afraid to do and why are you afraid to do them?
3. Faith is the cure for fear. Jesus says in Matthew 17:20 if you only have a small amount of faith, you can move mountains. Talk to your parents about what this means for courage (See also 2 Timothy 1:7)
4. God can give us courage when we ask him for it. See Acts 4:23-31 where God's people ask for this. Jesus was courageous for us. Think about the courage it took him to come to this world live and die for us especially when we were not courageous.
