

Get Wisdom! **Justice** Discussion Questions (More questions are available in the back of the book and songs and other resources are available online):

1. Justice is doing right or righteous things. Where do we find out what is right?
2. Why is God's law the standard for what is just or right? Why should we be passionate not just endure God's law (See Psalm 19; 119:97)?
3. God's law is like a ruler, or a balance scale as seen below. When your life is measured against God's law, how does it "measure up"? It is hard to "do justice". Ask God to help you to love Him more and give you strength to do justice.
4. The good news is we are just in God's sight not because we are just in ourselves, but God considers us as just as Christ based on His righteousness. Rejoice in this great truth.
